SHOOTING AT LOCAL TRAPS

CLOSE RACE FOR MARCH CUP AT TRAVERS ISLAND.

Three Men Tied, and G. W. Kuchler Wins the Trophy by One Target.N. V. Lenane Takes the First Leg on Haslin Cup - Crescent and Other Results.

The final leg for the March cup was the hig event of the New York A. C. shooters at Travers Island yesterday. Three men were a tie for the trophy, and by right the final should not take place till Saturday next, but there will be no shooting then, so it was decided yesterday. Those who made the dead heat were N. V. Lenane, J. O'Donohue, Jr., and G. W. Kuchler, and the deciding race was a twenty-five on the same mark, being in receipt of 1 target, while O'Donohue had 2. It was a dingdong affair until the last target flew, when Kuchler won out by one, and only separated second and third.

COMPANY E'S TROPHY. S. C. Northridge Bells Up Peints at 23d

Enthusiasm and company rivalry reigned at the thirty-fourth annual games of the Twenty-third Regiment in the armory at Bedford and Atlantic avenues, Brooklyn last night. Company E won the point trophy and the victory was largely due to the efforts of S. C. Northridge, who scored a majority of Company E's points. Com-pany C finished second with a total of 32 points. The others were: Company K. 27: Company H, 24; Company G, 18, and

Company M, 15.

The surprise of the evening came in the one mile handicap when Tad White went down to defeat before W. Berker. White of Company C and Berker of Company K started from scratch with a field of half a dožen. Berker let White make the pace and they gradually cut down the other runners. Hayslip of Company E had thirty yards and he managed to keep in the lead for half the distance. Then White and Berker three shades between himself and Lee. for half the distance. Then White and Ber-ker shot past him and, running stride for flew, when Kuchler won out by one, and only one separated second and third.

The Haslin cup, which was donated by President James H. Haslin, was up for discussion for the first time and on the first raily there was a tie between the Lenanes, N. V. having a handicap of 1, while T. Jr., had 3. They rolled up the full score of 23, but in the shootoff both fell short of their original work, though N. V. won by two targets. The shooter who scores the first divelegs on the cup becomes its permanent owner.

F. H. Schauffler won the leg on the Sauer and Billings cups, the latter being the distance handicap. T. J. McCahill and T. J. O'Donohue, Jr., were the other winners of the day. The scores:

DANIELS EQUALS A RECORD. His Time for 80 Yards Duplicates His Own Flgures.

Fast times were made in the swimming last night. Charles M. Daniels won the fifty-yard championship swim and equalled his own world's record of 25 1-5 seconds in the final heat. The champion was also responsible for the success of the New York A. C.'s first team in the 400 yard relay championship.

In this event several strong teams figured. A good deal was expected of the two home club quartets as well as of those representing the New York Swimming Association and the University of Pennsylvania.

the Swimming Association, had the most speed and gave his team a two-yards advantage over South and Sylvester, who swam for New York's first team and Pennsylvania, respectively. At the end of the second relay Goodwin succeeded in wiping out the association's lead, but when the third relief was ended the New York Swimming Association again had a two yards lead over New York's first team, with Pennsylvania a close third Daniels then took the water for New York's first team and not only overcame

the association man's lead but actually beat out Auherbach by a full five yards after easing up. Pennsylvania finished a close third. after easing up. Pennsylvania finished a close third.

A good race was looked for in the first heat of the fifty yards championship between Daniels and Chambers, the Princeton swimmer, who has been credited with some remarkably fast trials for the distance. Chambers not only failed to hold Daniels, but was unable to qualify. Lawrence beat him out on the last two feet. Aithough Daniels eased up the time was only a second slower than the record. In the final heat Daniels wam hard all the way and always had the race at his mercy. Had he not swerved off his course in the last fifteen yards he would probably have made the distance in 25 seconds. Mantell finished five yards behind Daniels. Lawrence lost the place by inches only.

There was a 160 yards handicap swim which H. Davis of Townsend Harris Hall won with the aid of a 14 second allowance. After that the New York A. C. and Pennsylvania teams met in a water polo game. English rules, the former winning 8 goals to acthing. The summary fellows:

The amateur championship of the N. F. A. for teams at folls brought only three entries to the Fencers Club last night. The fine trephy was won in the initial trials of 1905

tions that are right to the point, and 15 pages of illustrations showing all branches of the work from start to finish. Don't Let the Chicks Die in the Shell. One of dur secrets of success is to save all the chickens that are fully developed at hatching time, whether they can erack the shell or not. It is a simple trick, and believed to be the secret of the Ancient Egyptians and Chinese which enabled them to sell the chicks at 10 conts a dozen.

Chicken Feed at 15 Cents a Bushel.

Our book tells how to make the best green food with but little trouble and have a good supply any day in the year. Winter or Summer. It is just as impossible to get a large egg yield without green food as it is to keep a cow without hay or fodder.

Our New Brooder Saves Two

Cents on Each Chicken.

No lamp required. No danger of childing, overheating, or burning up the chickens as with brooders using lamps or any kind of fire. They also keep all lice off the chickens automatically, or kill any that may be on when placed in the brooder. Our book gives full plans and the right to make and use them. One can be easily made in an hour at a cost of 25 to 50 cents. The Philo System Is Unlike

· All Other Ways of Keep-

ing Poultry
and in many respects is just the reverse, accomplishing things in poultry work that have
always been considered impossible, and getting unheard of results that are hard to believe
without seeing; however, the facts remain
the same, and we can prove to you every
word of the above statement. The New System Covers All Branches of the Work

Necessary for Sucfrom selecting the breeders to marketing the product. It tells how to get eggs that will

hatch, how to hatch nearly every egg, and how to raise nearly all the chicks hatched. It gives complete plants in detail how to make everything necessary to run the business, and at less than half the cost required to handle the poultry business in any other manner. There is nothing complicated about the work; any man or woman that can handle a saw and hammer can do the work.

A FEW TESTIMONIALS.

Valley Fails. N. Y.. Sept. 5, 1907.
It was my privilege to spend a week in Fimira during August, during which time I saw the practical working of the Philo System of Keeping Poutitry, and was surprised at the results accomplished in a small corner of a city yard. "Seeing is believing," they say, and if I had not seen it would have been hard to believe that such results could have followed so small an outlay of time, space and money.

followed so small an outlay of time, space and money.

Oct. 22, 1908.

P. S.—A year's observation, and some experience of my own, confirms me in what I wrote Sept. 5, 1907. The System has been tired so long and by so many that there can be no doubt as, to its worth and adaptability. It is especially valuable to parties having but a small place for chickens; seven feet square is plenty for a flock of seven.

Ransomville, N. Y., Dec. 5, 1906.

Dear Sir:—Last Spring we purchased your heatless brooders last Spring and Summer. The same has been a great help to us in raising chix in the health and mortality, the chix being stronger and healthier than those raised in the brooders with supplied heat. We believe that this brooder is the best thing outly to raising chix successfully. We put 25,000 chix through your heatless brooder this last season and expect to use it more completely this coming season. We have had some of the most noted boultrymen from all over the U. S. here, also a large amount of visitors who come daily to our plant, and without any exception they pronounce our stock the finest and healthlest they had seen anywhere this year. W. R. CURTISS & CO.

Skaneateles, N. Y., May S. 1903.

One article of the Philo System, entitled "A Trick of the Trade," has been worth three times the amount the book cost. I saved on my last hatch fifty chicks, which are doing nicely.

Send \$1 and a copy of the latest revised edition of the Philo System Book will be sent by return mail. The latest edition has many pages of additional reading matter, and by ordering direct you are sure to get the latest and most important book.

Championship for Professionals at 18:2

to Begin To-morrow Evening.

An interesting contest will open the billiard tournament which is to determine the world's championship at 18:2 balls like.

which begins to-morrow evening at the LONG ISLAND REAL ESTATE FOR SALE Madison Square Garden concert ends on the evening of April 2. The game to-morrow night will bring together M. Cure, the Parisian expert, and Calvin Demarest. This arrangement is in compliment to the foreigner and also a recognition of the latest accession to the ranks of pro-fessional billiard players.

There is also an element of tactful arrange ment because Demarest, should he be beaten by Cure, will suffer no disgrace. If he should win it would add greatly to the interest of the tournament. Demarest's rise in billiards has been very rapid and more notable than that of any other young player for many years past. Four years ago Demarest, who has only passed his majority, could do little more than execute the simplest carrom. To-day in average and high runs he stands to give the leaders a hard battle and is liable to win any game he plays. His first professional appear-ance will therefore be the occasion of ex-

a hard battle and is liable to win any game he plays. His first professional appearance will therefore be the occasion of exceptional interest.

For Tuesday the games will be in the afternoon Cutler and Cline and in the evenning Sutton and Morningstar, Slosson will make his first appearance in the tournament on Wednesday night. The seven contestants have been burning the cloth in practice in the last three weeks. Sutton, who is proverbially indigerent in his practice, has been doing rather better than his average in preliminary work. Cure, practising at Daly's, has shown marked improvement over his form of three years ago. Slosson is playing the best game of his life, which is saying a great deal. Morningstar, always very fast in practice, has been faster than ever before, and has developed form which promises to make him very hard to beat. Cutler, the Boston representative, has shown a material advance over his play in previous games and tournaments. Cline, who enters a world's champlonship affair for the first time, is known to be speedy and may prove a hard proposition for his opponent in any one of the games he is to play.

The rules governing future championship contests at 18:2 have been changed in only one respect, that is that the holder of the smblem and the challenger may agree upon either one or more nights, 500 points each, instead of the one night game heretofore played in championship matches.

George Blosson won from Edward McLaughlin at 18:2 balkline in Slosson's room last night by a score of 500 to 189. Slosson averaged 20 20-24 and made a high run of 31. His average was 6 5-24.

Calvin Demarest lost two games to Tom Gallagher yesterday at McGraw's room. In the afternoon the score was: Gallagher 113. McLaughlin and an average of 33. Demarest made an high run of 84 and an average of 300 to 189. Slosson at the score was Sutton, 500; Eavlor, 60. In the second game Sutton's 470.

Orlando Morningstar is playing fine billiards in Sutton's rooms. Last night he beat J. Brown by a score of 400 to 90. Su

lor's 47.
Louis Cure, the French champion, defeated H. Smith at 18:2 at Maurice Daly's academy last night by a score of 500 to 109. The Frenchman made an average of 27 14-18 and a high run of 222. Smith's best run was 24.

MOUNT VERNON, March 20 .- There were 400 entries in the Public Schools Athletic League games here to-day, in which Public School 2 won the indoor championship, scoring 44 points. Public School 5 was second, with 28, and Public School 1 third, with 25 points. The games were held under the rules of the Public Schools A. L. of Mount Vernon, in which sizes of the boys are taken instead of weights. The new method proved a success.
